## **INET AGAIN GAVE ITS CONTRIBUTION OF WOOD FUND RESTORATION**

(*Skopje, 13.11.2009*). This year INet again took active participation in restoration of wood fund of Republic of Macedonia under the motto "Imagine Macedonia in green", in frame of the "The Three Day - plant your future"

In this action were planted 7.50 million plants on a surface area of 3,674 hectares with what Macedonia has become an example in the region and wider, for citizen union ship, for improving international image, massive output regardless of political color and religious affiliation.

Employees of INet took action for planting the yard in front of its company contributing at the same time, for surrounding working environment, ie for healthier living environment.

"The drive for such citizen initiative for reforestation particularly pleased and was accepted by the employees of INet, giving a contribution in rebuilding forests, and acknowledging the company's social responsibility. - said Tony Petreski, Managing Director of INet.

Up to now, in the past three actions were planted 13 million plants in Republic of Macedonia. First action took place on March 12, 2008 when were planted 2 million trees. After six months, on October 28, 2008, was organized the second one, with 6 million plants, on the March 14, 2009 were planted another 5 million trees. The organizers are planning new spring action on Balkan level, on which beside Macedonia will take place Albania, Monte Negro, Bulgaria, Romania, Croatia, Bosnia and Herzegovina, Serbia and Slovenia.
